

A WORLD FIRST FOR 2024

ECOTEX®

Marvec BioPVC

Bio-based reduced carbon pvc/vinyl chair mats

Super - durable chair mat performance combined with outstanding certified green credentials

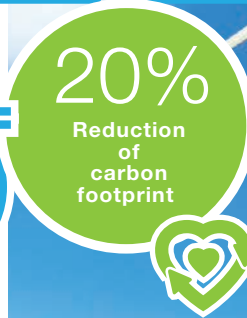

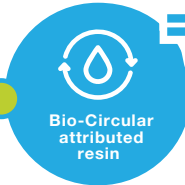

All the benefits of our world beating high performance Floortex Phthalate Free PVC/Vinyl chair mats, but with superb eco-friendly features and responsible green manufacturing.

- Manufactured in the UK from our Marvec BioPVC Phthalate Free formulation that provides excellent chair mat performance and durability.
- Contains no toxins, no lead, no tin, no cadmium or harmful plasticizers
- Provides a lightly embossed ergonomic easy-glide surface that enables the smooth movement of caster based chairs, to help reduce leg and lower back fatigue.
- Protects carpets and all types of hard floors including wood, laminate, tiled and stone flooring.
- High clarity BioPVC formulation allows the beauty of your flooring to shine through.
- Long lasting floor protection for the home and office. The perfect floor protector and durable barrier against all kinds of spills and expensive wear and tear.
- Easy to maintain and wipe clean.
- Limited Lifetime Warranty

To ensure our Ecotex Marvec BioPVC chair mats have the best eco-friendly credentials, every mat has been carefully manufactured using a 'Mass Balancing bio-circular' production process that is certified by the ICSS (International Sustainability & Carbon Certification).

This process includes the following eco-friendly production features:

- Our BioPVC chair mats are manufactured in the UK using 100% Renewable Energy, including solar and wind power.
- The resin manufacture is climate neutral with a massive 100% reduction in carbon emissions.
- Produced using 25% non-fossil based bio-circular material, bio-ethylene derived from wood based residue (crude tall oil), for a dramatically reduced impact on the environment.

A 20% reduction of carbon footprint is the combined eco-friendly benefit of combining 100% renewable energy in mat manufacturer and 25% non-fossil based bio-based resin content.

Designed and available for hard floor and carpet protection.

Gripper backed for carpets

Our carpet friendly grippers provide just the right amount of mat stability without damaging your carpet fibers.

Smooth backed for hard floors

Our smooth backed mats for hard floor use allow perfect protection and minimum in-use slip.

The lightly embossed top surface of both types of mat, ensure good caster grip and easy-glide ergonomic performance.

An Ecotex® Marvec BioPVC Chair Mat gives you the very best in long lasting chair mat performance and the first option in environmental responsibility.

Smooth Back for Hard Floors

Item #	Dimensions	Shape
CMFLFS0001	29" x 47"	Rectangular
