

Limited Lifetime Cleartex Megamat Warranty

Floortex provides a limited lifetime warranty on all Cleartex Megamat chair mat products which guarantees them to be free from any defects in material and workmanship at the time of sale to original purchaser, and will not crack, chip, break or shatter under normal usage. The warranty only applies to the original purchaser. Should any product during the warranty period, in Floortex's sole opinion, prove to be defective in material and/or workmanship under normal usage, Floortex will, at its option, replace the product at no charge (except as otherwise stated herein) provided that the product has not been subjected to abuse, misuse, misapplication, neglect, accident, disaster, alteration or modification.

This WARRANTY IS VOID under certain conditions, including but not limited to: use of metal casters; use of chair mat in an application not recommended by Floortex for that particular model; cutting or altering of the chair mat in any way by any individual or company other than Floortex or its designated agent; or use of the chair mat outdoors.

Damage to the product as a result of abuse, misuse, misapplication, neglect, accident, disaster, alteration or modification will VOID THE WARRANTY.

Normal wear and tear, including but not specifically limited to, marring and scuffing is not covered under the warranty. To apply for a replacement, submit a Warranty Claim Form complete with dated sales receipt or purchase order and an image of the mat in application and of the specific damage. Floortex reserves the right to request damaged chairmats be returned to the factory for inspection before sending replacement product.

A shipping and handling fee will be charged for all warranty replacements. Contact Floortex for further details using CustomerService@FloortexLLC.com. Some models may no longer be available. In warranties involving discontinued product, Floortex will provide, at its discretion, a product with the specification that most closely match the original type purchased or if no replacement is available, Floortex may retract the warranty.

Floortex Polycarbonate Chair Mats

After 24 months of purchase date, claims are limited to 1 replacement per product purchased, and Floortex will not be obligated to replace any product which has previously been replaced under this warranty.

This warranty does not cover damage from accidents, misuse, abuse, or improper handling. In no case shall Floortex's liability under any other remedy prescribed by law exceed the purchase price.

Cleartex Megamats - Use & Care

Floor mats are highly cost-effective in protecting expensive floor coverings from loss of appearance, wear and damage. They have an embossed upper surface, and are translucent so that the appearance of the underlying floor covering remains visible.

In addition to facilitating easier movement of office chairs, particularly on carpeted floors, they can also be used on any flooring area needing protection, such as under areas used by pets, children's' high chairs, and indoor pot plants.

Please note:

Megamats are suitable for use on smooth hard floors or all pile carpeted floors. Use on uneven flooring can result in damage to the mats from caster based chairs.

Use & Care:

Correct use and care of your Floor mat will ensure its serviceability and durability as well as giving best protection for your Floor covering.

- When room temperatures are below those recommended above normal use could be harmful: allow room temperatures to rise before using.
- As with any household or office product, handle with care at all times to maintain quality and durability.
- Floor mats are precision cut to size: do not cut or in any way alter mats as this can impair performance.
- Do not use in wet areas.
- Do not use where there are extremes of temperature.
- Do not subject mats to excessive concentrated loads.
- Do not use floor mats under office chairs which have metal castor wheels.
- Take care to avoid contact with solvent based paints, inks, varnishes, alkali cleaners, bleaches and oils: these are particularly harmful to polycarbonate.
- Clean only with a cloth or sponge soaked in mild soapy water.
- Do not use smooth floor mats on ridged, pitted or uneven concrete as they will be damaged by office chair loadings.
- Floors with rough textured floor tiles, or deep or wide grooves between tiles will damage mats under office chairs.
