

P-TEX[®]

a floortex brand

APPA[®]
American Pet Products Association
MEMBER
Advancing the Pet Industry

The P-TEX range offers a simple way to keep floors and furniture free from scratches, dirt and expensive damage that can be caused by pets, their food, dog crates and cages.

A unique range of surface protection mats for homes with pets.

A great opportunity to increase the basket value with all pet item sales.

Simply cross-sell a P-TEX mat with any number of pet products, from dog and cat crates, litter trays and food bowls, to dog beds and bird cages and increase your company profit.

P-TEX mats have many uses, for every kind of pet – they're the practical product your customers didn't know they needed ... until now!

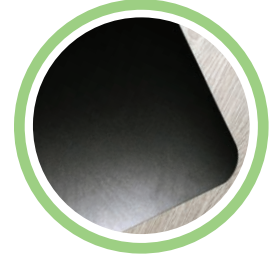

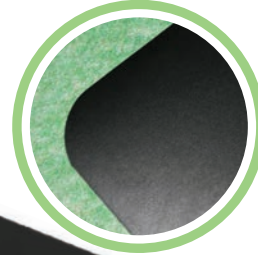

Dog Crate Floor Protection Mats

Dog crates are great to help your pet feel safe, secure and comfortable - and provide a secure area that a dog can go into for short periods of time - or use as a sleeping den.

However, metal crates can cause expensive damage to your flooring!
Wooden floors can get scratched and dented while carpet fibers can get worn and be subjected to rips and tears.

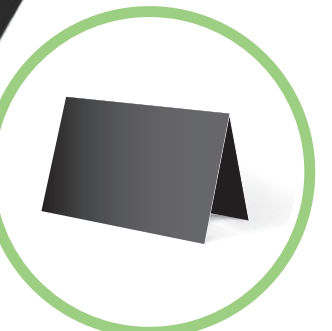

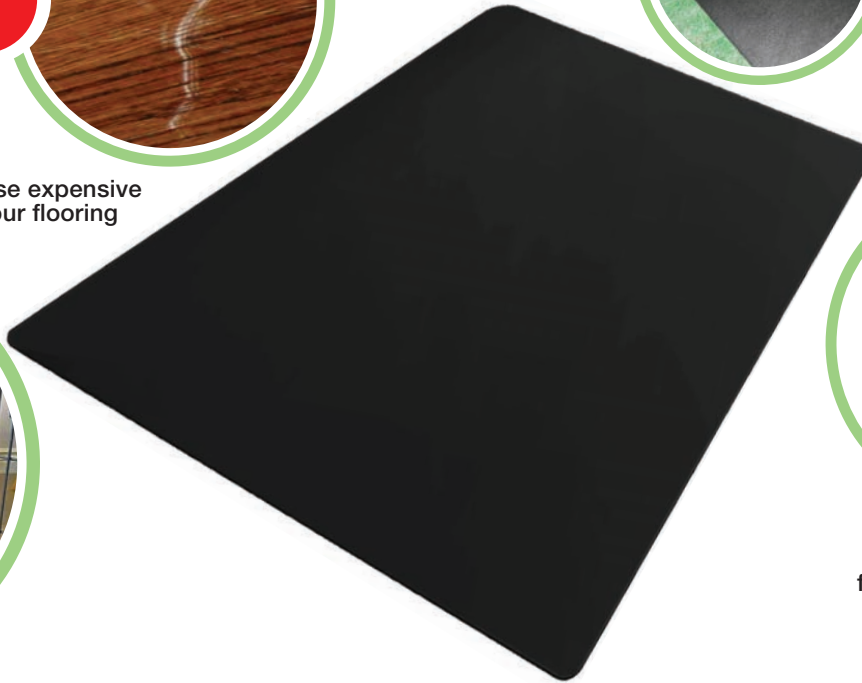

Crates can cause expensive damage to your flooring

Prevents damage to both hard floors and carpets

Unbeatable protection for your carpet or hard floor from the damage caused by dog crates and puppy training

Our XXL size mat has an integral hinge to allow folding for easy portability and storage when not in use.

P-TEX Floor Protection Mats create a protective barrier between the crate and your flooring.

Highly durable and easy to clean or move around, a Dog Crate Floor Protection Mat will protect your hard floors and carpets from the day-to-day wear a dog crate can cause.

Protects both hard floors and carpets from wear, tear and food & drink spills with equal effectiveness.

P-TEX Floor Protection Mats create a protective barrier between the crate and your flooring.

Our mats are available in three sizes, specifically designed to provide the best protection from the most popular sizes of dog crate.

P-TEX Dog Crate Floor Protection Mats are perfectly safe for your pet and are guaranteed not to adversely affect varnished or lacquered floors. They contain no phthalates and are completely free of any toxic chemicals.

Guaranteed not to crack, chip or shatter under normal use.

Compatible with under floor heating systems. Not sensitive to alkali-based cleaning products.

Recyclable.

Odorless and toxin free - does not contain BPA, PVC, tin, lead or cadmium.

Simple to easily wipe or mop clean.

1 Year Limited Warranty.

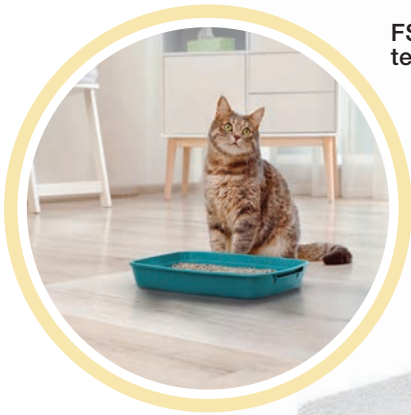

Item	Description	Size
Dog Crate Floor Protection Mat	Black Polypropylene	26" x 20" - For crate sizes: 22" x 13" (Small) 24" x 18" (Medium)

Prevent expensive damage and look after your dog and your home with a P-TEX Dog Crate Floor Protection Mat.

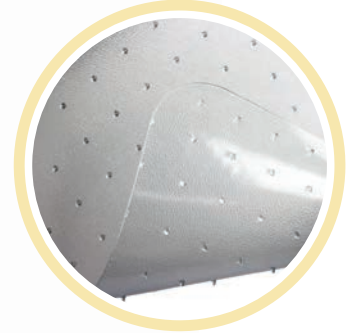

Pet Station Mats

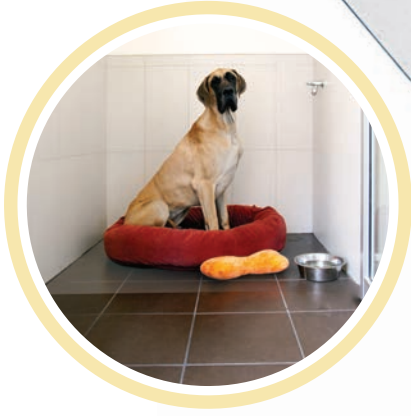

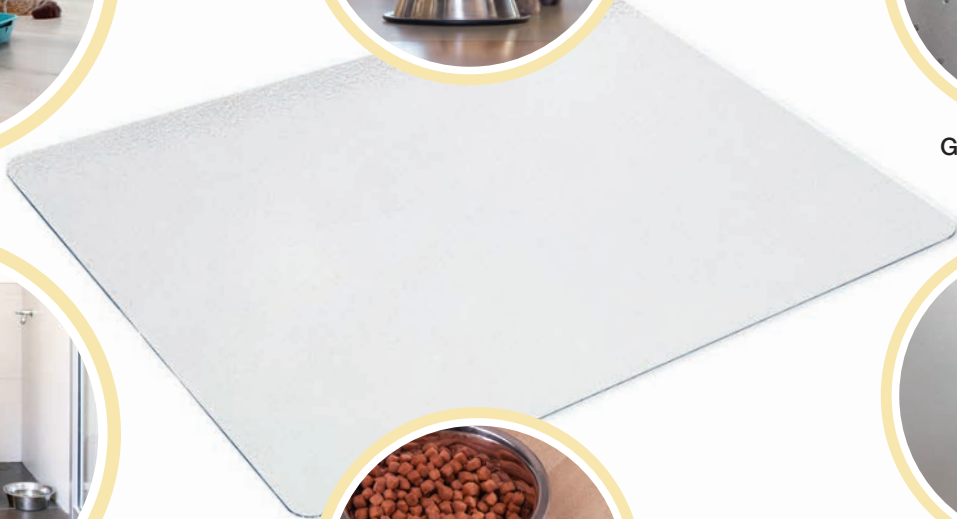

FS Bio Anti-Microbial technology

Clear and discreet

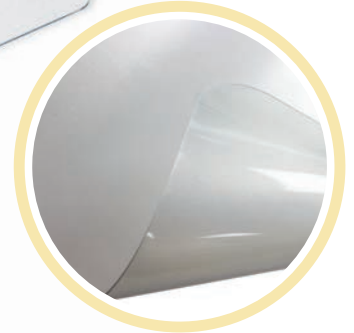

Gripper back for carpet

Protects against odors

Prevents damage

Smooth back for hard floors

P-TEX Anti-Microbial Mats contain FS Bio, a unique anti-microbial additive which inhibits the growth of harmful microbes on the mat surface.

Easy to clean, simply wipe or mop as needed.

Total barrier protection for use under litter trays or puppy training pads.

Use under pet beds to protect your carpets from lingering odor and 'nesting' behavior

FS-Bio Anti-Microbial technology is built in to the mat during manufacture. It won't wash off or wear away and it lasts the lifetime of the mat.

P-TEX mats are non-toxic and phthalate-free. They are ideal to use under food and water bowls, to protect floors and carpets from spillages and stains.

For hard floors, including polished wood, laminate and tiles, choose a smooth back P-TEX Floor Protector mat.

Keeps your floor free from damage and dirt. The backing is smooth, stable, and will not mark or scratch your floor

To protect carpets, choose a gripper-back P-TEX mat. Small spikes grip onto the carpet and ensure the mat won't move around during use. Provides a complete barrier to keep your carpet clean and free from damage and odor

Item	Description	Size
Anti-Microbial Pet Mat	Protective Mat for Carpeted Floors	36" x 48"
Anti-Microbial Pet Mat	Protective Mat for Carpeted Floors	45" x 53"

Anti-Microbial Pet Mat	Protective Mat for Hard Floors	36" x 48"
Anti-Microbial Pet Mat	Protective Mat for Hard Floors	45" x 53"
Anti-Microbial Pet Mat	Protective Mat for Hard Floors	48" x 60"

P-TEX Pet Station Mats are recyclable and made at our UK manufacturing site, where 50% of the site's energy comes from on-site & external renewable sources.

Multi-Purpose Anti-Microbial Pet Mats

Protects against dirt, moisture and odor

Protects furniture from scratches and scuffs

FS Bio Anti-Microbial technology

Non-toxic and phthalate free

Each mat has built-in anti-microbial technology to continuously protect the mat from microbial deterioration.

Easy to clean, simply wash down with hot, soapy water.

Protects surfaces from all kinds of damage - use under small pet cages, litter trays, tanks, food bowls and more.

Wide range of sizes and shapes

Wide range of sizes available, to suit every type of cover, for every type of pet!
Choose from full table top coverage to small fishbowl size mats, and everything in between.

Non-toxic and phthalate-free. Ideal for use under food bowls to protect furniture and floors from spillages, food stains and smells.

Waterproof barrier

P-TEX mats are clear, to ensure they are unobtrusive in every setting.

Use under pet beds to protect fabric and carpets from lingering odor and scratches.

P-TEX Mats offer total barrier protection, making them ideal for use under fish tanks and bowls to protect polished wood from water damage.
