

P-TEX[®]

a floortex brand

The P-TEX range offers a simple way to keep floors and furniture free from scratches, dirt and damage caused by pets, their food and cages.

A unique range of surface protection mats for homes with pets.

A great opportunity to increase the basket value with all pet item sales.

Simply cross-sell a P-TEX mat with any number of pet products, from litter trays and food bowls, to dog beds and bird cages and increase your company profit.

P-TEX mats have many uses, for every kind of pet – they're the practical product your customers didn't know they needed ... until now!

Anti-Microbial Floor and Carpet Protector Mats – for all pets

FS Bio Anti-Microbial technology

Clear and discreet

Gripper back for carpet

Protects against odour

Prevents damage

Smooth back for hard floors

P-Tex Anti-Microbial Mats contain FS Bio, a unique anti-microbial additive which inhibits the growth of harmful microbes on the mat surface.

Easy to clean, simply wipe or mop as needed.

Total barrier protection for use under litter trays or puppy training pads.

Use under pet beds to protect your carpets from lingering odour and 'nesting' behaviour

FS-Bio Anti-Microbial technology is built in to the mat during manufacture. It won't wash off or wear away and it lasts the lifetime of the mat.

P-Tex mats are non-toxic and phthalate-free. They are ideal to use under food and water bowls, to protect floors and carpets from spillages and stains.

For hard floors, including polished wood, laminate and tiles, choose a smooth back P-Tex Floor Protector mat.

Keeps your floor free from damage and dirt. The backing is smooth, stable, and will not mark or scratch your floor

To protect carpets, choose a gripper-back P-Tex mat. Small spikes grip onto the carpet and ensure the mat won't move around during use. Provides a complete barrier to keep your carpet clean and free from damage and odour

Item	Description	Size

Anti-Microbial Furniture Protector Mats – for all pets

Protects against dirt, moisture and odour

Protects furniture from scratches and scuffs

FS Bio
Anti-Microbial
technology

Waterproof barrier

Non-toxic and phthalate free

Wide range of sizes and shapes

Each mat has built-in anti-microbial technology to continuously protect the mat from microbial deterioration.

Wide range of sizes available, to suit every type of cover, for every type of pet!
Choose from full table top coverage to small fishbowl size mats, and everything in between.

P-TEX mats are clear, to ensure they are unobtrusive in every setting.

Easy to clean, simply wash down with hot, soapy water.

Use under pet beds to protect fabric and carpets from lingering odour and scratches.

Protects surfaces from all kinds of damage - use under small pet cages, litter trays, tanks, food bowls and more.

Non-toxic and phthalate-free. Ideal for use under food bowls to protect furniture and floors from spillages, food stains and smells.

P-TEX Mats offer total barrier protection, making them ideal for use under fish tanks and bowls to protect polished wood from water damage.

Dog Crate Mats

Unbeatable protection for your carpet or hard floor from damage caused by dog crates and puppy training.

Waterproof barrier essential for puppy training

Prevents damage to floors and carpet caused by crates

Durable barrier against digging and scratching behaviour

Protects floors against doggy odour

Can be adapted to different uses as your puppy grows

Clear and discreet mat easy to wipe or mop clean

P-Tex Dog Crate Mats are durable and tough. Made from Polycarbonate – the same material used in aircraft windscreens – it acts as a virtually indestructible barrier to damage caused by the crate scratching or moving on your floor.

If your dog outgrows the need for a crate, this mat is adaptable and can be used under bedding, feeding areas, and to protect flooring where needed.

Used under the dog crate, this mat offers complete floor protection against damage, dirt, odour and moisture.

Prevents damage to valuable carpets and floors caused by dogs' digging or scratching behaviour.

This mat will not discolour, stain or curl. It is very easy to clean - simply wipe or mop

Highly recommended for use during puppy training.

Recommended for use in veterinary surgeries, dog kennels, for dog walkers and pet owners.

Non-toxic and phthalate-free

Item	Description	Size
Dog Crate Floor Protection Mat	Clear Polycarbonate	89cm x 119cm
Dog Crate Floor Protection Mat	Clear Polycarbonate	120 x 134cm

More mats for dog lovers

The Doortex[®] range of indoor mats can be used around the home – in doorways, hallways, utility rooms or kitchens

Highly absorbent nylon fibres on the mat surface soak up excess moisture from footwear (and paws) and the waterproof vinyl backing protects carpets and keeps floors clean.

Provide an absorbent and protective area for dogs' food and water bowls.

These mats provide a warm welcome home after dog walks, and are a great place to store footwear, to keep dirt and moisture away from living areas.

The lay-flat vinyl backing is non-slip for extra stability on hard floors

Item	Description	Size
Indoor Mat	Beige Dogs Welcome Home Mat	60cm x 100cm
Indoor Mat	Beige Boot and Paw Prints Mat	60cm x 100cm
Indoor Mat	Brown Dogs Silhouette Mat	60cm x 100cm
